INTRODUCTION

PROMINENT MEN of Scranton, Wilkes-Barre and Vicinity is the outcome of expensive preparation, requiring nearly two years of painstaking labor to complete, and is sent forth with confidence that it will be valued by the intelligent community it represents in proportion to its manifest merits.

Over twelve hundred portraits make this by far the most comprehensive collection ever published in the Lackawanna and Wyoming Valleys.

So remarkable an array of portraits of the prominent and noteworthy men, present and past, was at first considered impossible by discerning citizens whose advice was sought, and neither they nor anyone who has not shared the labors involved in the making of this book can properly realize the difficulties which have been overcome.

The sketches are arranged in numerical order, commencing at the ending of the portraits, and in every instance confined to facts. Often it would be easier to write a page of ordinary biography than to indicate a man's career in a few lines, but the charm of such a collection of portraits, unmarred by any indiscriminating biographies, always tiresome and sometimes incorrect, makes this book a pleasant review instead of a mental task.

Included in the collection are many portraits of those who have passed away, which enhances its value, and the possessors of this memento will have "a kind of excellent dumb discourse" more eloquent than words, to entertain and instruct their families and friends and hand down to posterity an heirloom which must increase in value as the passing years recede into fainter and fainter memories.

The arduous toil of making a worthy collection of Portraits of Prominent Men of Luzerne and Lackawanna Counties is ended, and the completed result is ready to be placed in the hands of its subscribers. We are sure that it will be cordially welcomed and that the better it is known the better it will be appreciated.
